

Geology New Findings
(*Journal of Science Kharazmi University*)

Contents

Babazadeh S.A., Soltani Najafabadi M.

Biostratigraphy of Eocene Sedimentary Rocks Based on *Alveolina* in East Lut Block, Iran

Darvishi E., Khalili M., Nadimi A.

Investigation of Deformation Evidences and Shear Zone in Marziyan of Azna Granitic Pluton, Sanandaj-Sirjan Zone

Masoudi F., Naderi F.

Deformation Evidence for Regional, Contact and Dynamic Metamorphism in Aliabad Damagh Shear Zone (Hamadan)

Mirabedini M.S., Agh-ataby M.

Spatial Variation of Fractal Parameters in Central Alborz, Iran

Mirlohi A.S., Khalili M., Tabatabaeemanesh S.M., Masoneh H.

Mica Chemistry and Metamorphism in Garnet-Micaschists from Haji-Qara Mt., North of Golpayegan

Nasari H.R., Keyhomayon Z., Nakhaee M.

Simulation of Nitrate Transport in Groundwater: Lenjanat Plain, Isfahan

Noori F., Azizi H.

The Rodingitization of Gabbroic Bodies in the Southeast of Sahneh (West of Iran) with Emphasis of Mineral Reaction and Isotope Geochemistry

Geology New Findings

(Journal of Science Kharazmi University)

Managing director: Taherizadeh, A. J., Professor

Editor-In-Chief: Mehrabi, B., Associate Professor

Editorial Board:

Adabi M. H., Professor

Amini S., Professor

Amini A. H., Professor

Daneshian J., Associate Professor

Ghaderi M., Associate Professor

Mohajjel M., Associate Professor

Masoudi F., Professor

Mehrabi B., Associate Professor

Nakhaee, M. Associate Professor

Literary editors:

Atai, M. R., Associate Professor, Torabi F.

Chief executive: Torabi, F.

Expert magazine: Hamdolahi M.

Address:

Kharazmi University, 43 Mofateh Ave.

Postal Code: 15719-14911, P. B.: 15815-3587

Tehran, Iran.

Tel: +98 21-88329212
